## **Introduction**

National Archives and Library of Ethiopia had consecutively issued bibliographies of books received under proclamation No 179/91, from printers and publishers in the country.

Though the Union Catalogue and Acquisition Department believes that the Bibliography issued yearly had contributed to those engaged in research work, we will feel that all materials printed in Ethiopia are not exhaustively collected and the Bibliographies too were not exhaustive to cover all Publications. This is due to the inconsistency of handing over publications to the department timely on the Printing presses.

Kindly requesting all printing houses in the country to give more attention and due to consideration to the fulfillment of the obligations bestowed upon them by the proclamation 179/99, We would like to inform our clients to provide all their publications to NALA in order to disseminate information to the Society timely.

This issue has tried to cover the publication of the years 2007-2009, partially received through proclamation donations, and purchase, and also contain Amharic and other language Publications arranged by subject.
